BID SPECIFICATIONS FOR *Bacillus thuringiensis israelensis (Bti) Water Dispersible Granule*

General: The purpose of these specifications is to describe the abatement material of desired quality. The price quoted shall be the net cost (product, shipping, etc...) to the District. You must submit an EPA approved label and MSDS for all pesticides.

Limits: This proposal shall be effective from April 1, 2017, until re-bid (bid period not to exceed three years). The District shall requisition the materials as needed. The proposal shall be for approximately ~~two hundred thousand (200,000)~~ fifteen thousand (15,000) pounds per calendar year, containing not less than 3000 *Bti* ITU/mg. The *Bti* should be attached to a water dispersible granule and labeled for application over residential areas. *Bti*-based larvicides must contain an EPA label allowing the applicators to apply without the use of a dust/mist filtering respirator when applied from an enclosed cab or aircraft. The product must be registered with the EPA for mosquito control and registered for use in Florida.

Proposal: The undersigned, as Bidder, does declare that this proposal is made in accordance with these specifications, and that no other persons other than the Bidder herein named has any interest in the proposal or in the contract to be taken, and that it is made without any connection with any other person or persons making proposal for the same abatement materials, and is in all other respects fair and without collusion or fraud. The undersigned further declares that he will furnish the necessary materials in accordance with these specifications and the prices stated shall remain in effect throughout the bid period as defined above.
